Forecast for Tuesday 04 Jul 2023

Weather: Mostly dry and cloudy through early Monday morning, but still a risk of isolated showers of rain at times. Risk of showers continues throughout the day, but may become heavy and locally thundery into the evening, and may persist through the night.

Chance of cloud-free hill tops above 600m: 60% in the west at first, otherwise 80%.

Low cloud and visibility: Banks of early low cloud may affect higher peaks during the morning, lowest bases likely to the west of the area where they may fall to around 400m at times. Bases soon lifting through the morning but may deteriorate in any heavy showers.
